

Breezenodes Ltd ToS

Terms of service of Breezenodes Ltd.

Breezenodes Ltd("The Provider", "BreezeNodes") provides KVM VPS Hosting currently.

In the near future, Breezenodes Ltd. will offer dedicated servers, GPU servers, and Minecraft servers.

By placing an order on BreezeNodes, the customer accepts these terms of service.

1. **SLA and Uptime:**

Our target uptime is $\approx 99.5\%$.

Maintenance: A 24-hour notice via email or Discord will be sent out prior to scheduled maintenance (such as infrastructure updates).

Force Majeure: Breezenodes Ltd. is not liable for disruptions brought on by uncontrollable severe weather conditions, ISP failures, or power grid failure.

2. **Data Loss & Liability**

There is no warranty; services are provided "as-is." Any data loss, financial loss, or interruption of business is not the Provider's responsibility.

Backups: Off-site backups are the responsibility of the clients. In the event of a hardware malfunction, Breezenodes Ltd makes no guarantees about data integrity.

3. **Refunds & Billing**

All services are pre-paid. Due to the high cost of IPv4 addresses and electricity, we do not offer refunds once a service has been provisioned.

The customer is not locked into any contract and is free to cancel their service at any given time.

If the customer does not renew their server, BreezeNodes is authorized to delete all data of the server, 3 days after the server has expired.

4. **VPS**

The customer is not allowed to crypto mine on a vps.

The customer is not allowed to host illegal sites that are prohibited by law.

The customer is not allowed to do any illegal activities prohibited by law.

The customer is not allowed to use their machine to send Dos or DDos attacks

Breezenodes Ltd has the right to suspend the user's vps if there is any form of illegal activity.

5. **Support**

Breezenodes Ltd provides support only for services that are provided by BreezeNodes.

The customer can get support via discord or opening a ticket via the billing panel.
